## **Strelcheck Chiropractic Clinic Congratulates New Therapist**

Crystal Lake, Illinois—Victor Rico is quickly becoming well known around town as Strelcheck Chiropractic Clinics’ newest licensed massage therapist. Within a short time, Victor has learned to keep pace with the demands of treating patients at the busy clinic while maintaining his naturally relaxed and charming demeanor. Victor began his career with Strelcheck Clinic over a year ago as a chiropractic assistant, a role that helped deepen his understanding of chiropractic

theory and treatment modalities as well as lay the groundwork for his future role as a massage therapist. “While Victor is technically proficient at massage, I believe his personality is perfectly suited to the healthcare profession,” commented Ryan Johnson, director of massage at Strelcheck Chiropractic Clinic. Rico attended Cortiva Institute to study massage. After graduating, Victor went on to secure his Illinois state license to practice massage in Illinois earning his National Certification of Therapeutic Massage (NCTM).

His advanced repertoire of therapeutic massage techniques consists of: Swedish, Deep Tissue, Trigger Point Therapy, Sports, Prenatal and Labor Post Partum, Myofascial Release and chair massage.

Victor stated, “I love to help people feel better and feel honored to work alongside experienced and caring doctors.” As an additional bi-lingual member of the Strelcheck team, Victor enables Spanish speaking individuals to convey health complaints and history accurately and comfortably through translation, providing them an extra measure of ease and reassurance during their visits.

Victor can be seen at community outreach events and corporate health fairs where the Strelcheck professionals are often found. When he’s not treating patients, Victor likes to keep in shape and spend time with his friends.

The doctors, physical therapists and massage therapists of Strelcheck Chiropractic Clinic meet with over 18,000 patient visits annually. Strelcheck Chiropractic Clinic was established to serve the chiropractic care needs in and around McHenry County.
