BACK DISABILITY INDEX Name: _____ Date: _____

*__Must__ have accumulative score of __9 points__ to qualify for Insurance submittal.
*All other non-qualifying 8 points and less will not be submitted to insurance and deemed a cash maintenance visit.

It is our goal to only educate and advise you on what insurance companies are looking for when submitting claims. From our experience, we can tell you that insurance companies are concerned with specific information in a very specific order.

To successfully submit your claims for consideration, it is vital that you answer all questions thoroughly. Otherwise, there's a possibility that your claims will be denied.

It is a fact insurance companies are more concerned about what you say as the patient and not what the doctor states. With that said, the following becomes critical in filling out your initial paperwork and all additional paperwork in an effort to get any future visits approved.

- Be specific with all your ailments no matter how small or large.
- State every symptom you are feeling.
- Zero pain levels will not get your claims paid, so be honest and reasonable with your pain levels. Use the chart that is provided with your paperwork.
- List out how your symptoms interfere with your daily life such as work, home and in your social life.
- It is vital that you keep your insurance company aware of reoccurring problems, symptoms, exacerbated conditions and new injuries large or small.
- Areas of the neck, back, low back, and extremities require symptoms in order to be treated.
